## **INVESTER United Benefits GmbH**

As a service provider, INVESTER is an independent initiator, developer and operator of unique real estate projects across Central Europe. It offers its project participants all required services in one place. As an integrated group, INVESTER is in the position to cover the full range of functions as well as support its stakeholders in their decisions.

### **Expert Knowledge**

The company unites personalities with experience, dynamics, and, most importantly, integrity. In combination with its network and the in-depth knowledge of its founders, the company benefits from high acquisition power. Thus, its property transactions and the subsequent developments can be realized promptly and competently.

### **About INVESTER United Benefits GmbH**

In the summer of 2016, INVESTER United Benefits GmbH was founded by two renowned real estate developers and managers - Franz Alexander Kollitsch and Erwin Krause. They have been successful players for many years, both in property and urban development, as well as the construction and real estate sectors. Together they stand for profound expertise in the Central European market, with a distinct focus on German-speaking countries. More information under: [www.invester.at](http://www.invester.at)
