

Press release – March 10th, 2025

## Climcycle joins MIPIM 2025: Revolutionizing ESG Reporting for the Real Estate Sector

*Cannes March 2025*, Climcycle is excited to announce its participation in the world-renowned MIPIM 2025, taking place in Cannes from March 10-14, 2025. As an expert in secure and comprehensive ESG (Environmental, Social and Governance) reporting, Climcycle is set to showcase its SaaS solution designed to help real estate professionals meet the growing regulatory demands of sustainability and climate-related disclosures.

---

Climcycle is excited to announce its participation in the world-renowned MIPIM 2025, taking place in Cannes from March 10-14, 2025. As an expert in secure and comprehensive ESG (Environmental, Social and Governance) reporting, Climcycle is set to showcase its SaaS solution designed to help real estate professionals meet the growing regulatory demands of sustainability and climate-related disclosures.

### Simplifying complex ESG regulations

The increasing complexity of ESG regulations, from the EU Taxonomy to the Corporate Sustainability Reporting Directive (CSRD), has created new challenges for the real estate sector. Climcycle addresses these challenges with its all-in-one platform, which offers nine tailored modules to meet diverse ESG reporting requirements. The software provides essential tools for physical climate risk assessment, ESG risk scoring, and biodiversity analysis, ensuring that companies fully comply with the latest industry standards and regulatory frameworks.

“Our mission at Climcycle is to empower businesses in the real estate sector to embrace sustainability with confidence,” said Bernhard Gruber, CEO of Climcycle. “By providing a comprehensive and user-friendly solution for ESG reporting, we enable our clients not only to comply with evolving regulations but also to demonstrate their commitment to a more sustainable future. MIPIM 2025 presents an exciting opportunity to connect with industry leaders and showcase how our platform can simplify the transition to responsible, data-driven real estate management.”

### Visit Climcycle at MIPIM 2025

Climcycle’s team of experts will be available at MIPIM 2025 to demonstrate the capabilities of their platform and answer questions about ESG reporting. Attendees will

have the chance to see firsthand how Climcycle's innovative technology can simplify ESG compliance, reduce reporting risks, and enhance the transparency of their sustainability efforts.

Climcycle is inviting all MIPIM attendees to visit their booth and discover the All-in-one solution.

For more information about Climcycle and its participation at MIPIM 2025, please visit our [LinkedIn Profile](#) or contact Ines Wech, Head of Marketing at Climcycle.
